

Reform UK Scotland Respects Our Veterans

In February 2024 Reform UK announced that one of our first actions on taking power would be to set up a Department for Veterans, to respect the service of our military personnel.

Within the first 100 days we will:

Establish “**You Serve, You Deserve**”. A fully recognised national rewards and benefits scheme for veterans and families, including travel.

Instigate “**Veterans First**” priority status. For healthcare, housing, training and education, together with support for dependents.

Our longer programme will include:

Taking Back Control of Armed Forces Recruitment. This has become a crisis due to woeful private-sector outsourcing, bureaucracy and incompetence.

Veterans can be best motivators for recruiting new people into the armed forces.

Taking Back Control of Military Accommodation. Poorly run and outsourced property management contracts have failed our armed forces. Thousands of homes are in poor condition or uninhabitable, which is inexcusable.

There will be a candidate standing in your constituency at the General Election and we would appreciate your support. If you would like a speaker for your group please send an email to scotland@reformuk.com.
